

GOLDIEN AGIE

COLLECTION

Necklace - Ring

Congratulations,

You are now part of Aviation History. The Golden Age Necklace and ring are jewelry pieces inspired in the golden years of Aviation.

The Golden Age refers to a time of glamorous air travel where the aviation industry experienced a quick evolution in technological advances.

The Golden Age Collection represent the conceptualization of those golden years into a design that evokes the streamlined lines of the early jetliners.

We wanted to pay a tribute to the talent, passion, and dedication of the many people that made Aviation grow into the great industry that it is today, so you can have a true testament of love to the history of flight.
